

HIGHLAND

Copper Company Inc.

February 13, 2018

Governor Rick Snyder
P.O. Box 30012
Lansing, Michigan 48909

Dear Governor Snyder,

This letter is written in support of Michigan Works! Team in the Ironwood, Michigan office and the services they provide us here in the Western Upper Peninsula.

Brian and Yvonne are an enormous help to Highland Copper Company by actively searching Pure Michigan Talent Connect for our current and future employment needs and encouraging people to apply. They also post our open positions on Michigan Works!. A recent example of success for these efforts, is that over 30 applicants were received for an Administrative Assistant position that we recently filled. We have also received several applicants for our Mine Manager and Maintenance Superintendent positions that they posted on Michigan Works.

In addition, we were invited to participate in a career exploration day (see pictures below) on February 7th, 2018 to introduce 11th, 12th graders and Gogebic Community College students to our mining company. This is the kind of effort that is very valuable for us, as we look to fill future jobs with graduates who have a hunger and drive to continually pursue further education and skills.

We would like to see the services that Michigan Works! provides to continue. If you have any questions about our experience with Michigan Works! please feel free to contact me using any of the information below.

Sincerely,

Sylvain Collard
General Manager
