The Honorable Rick Snyder
Governor
PO Box 30013
Lansing, MI 49909

Dear Governor Snyder,

Let me introduce myself. I am Jeff Peltier, and I own a small construction company in Upper Michigan since 2008. One of the problems we have expanding is finding good, qualified employees.

With my company's association with Michigan Works!, this year we were able to take a risk on an unknown, mostly unskilled, laborer; and begin to train him into becoming a skilled laborer for the construction industry.

Thru the Transitional Job Placement program, we were able to expend the time and effort to train him in various job experiences, at a reduced cost to us. Keith is and has learned skills that have made him a valuable employee, and we hope to employ him in the future. We also plan to expose him to more jobs and responsibilities.

The Michigan Works! Office has been very helpful with, and following up on, the training Keith received.

We hope to continue this good working relationship.

Sincerely,

Jeff Peltier
