RE: Utilization of West Michigan Works!

Dear Governor Snyder

I wanted to take just a moment of your time to commend West Michigan Works and their valued support in our efforts to apply for, and be accepted by, the 2018 STTF Grant Program.

We have 177 drivers employed by our company, 126 of which recently completed various CETP training curricula required by the National Propane Safety Council. The grant funding provided by the STTF Grant Program was instrumental in achieving the successful completion of our driver training. The STTF Grant Program also supported us in hiring new drivers and getting them properly trained in the safe use and transportation of petroleum products.

Thank you, again, for your efforts in providing us this valued support from the West Michigan Works.

Respectfully,

Daryl Cappon
