

August 27, 2018

The Honorable Rick Snyder
Governor
P.O. Box 30013
Lansing, MI 48909

Dear Governor Snyder,

On behalf of BCN Technical Services, I would like to express our appreciation for the workforce development services provided by West Michigan Works!

BCN Technical Services is a manufacturer and rebuilder of metal stamping presses. We also support the defense industry with ammunition manufacturing equipment which is used by our government and many militaries around the world. Our business employs machinists, assemblers, engineers and project managers as well as a complete support staff for these services.

We utilize West Michigan Works as skilled labor is very difficult to find in our current market. Our company has been hiring less skilled workers and training them in the processes we require, Michigan Works helped BCN reach our goal by helping to offset some of the training costs and thereby helping us stay competitive.

As a former board member of SEMCA I was familiar with this program and reached out to West Michigan Works who provided the assistance we sought.

Sincerely,

Ron Fukui
Vice President
