

March 30, 2018

The Honorable Rick Synder
Governor
PO Box 30013
Lansing, MI 48909

Dear Governor Snyder,

I am writing to you to share our story about working with Michigan Works! over the past many years. We work closely with them when we are looking for people to staff our openings when we have them. The people that we hire include: Welder, Laborer, Parts Prep, Shop Floater, and Metal Finishing/Coating.

Michigan Works! is consistently reliable to inform us about opportunities such as the Skilled Trades Training Fund and other programs such as Incumbent Worker Training grants. They have always provided a high level of customer service and we consider them an integral part of our team. We know we can reach out to them anytime we are in need of assistance of any type.

Since 1994 Nor-Fab Enterprises, Inc. has been providing high quality sheet metal parts, fabrications, and services for a wide variety of industries. During this time we have remained committed to building long term customer relationships by adding value at every step from quoting to delivery. Our dedicated staff of manufacturing professionals are the cornerstone of our company.

We appreciate our positive and ongoing relationship with Michigan Works!

Sincerely,

Molly Montgomery

Office Manager
