

**Digital
Tool &
Die, Inc.**

August 13, 2018

The Honorable Rick Snyder
Governor
P.O. Box 30013
Lansing, MI 48909

Dear Governor Snyder,

On behalf of Digital Tool & Die, Inc., I would like to express our appreciation for the workforce development services provided by West Michigan Works! Digital Tool & Die, Inc., is a small/medium size stamping company, employing approximately 72 employees in West Michigan. We have been in operation since 1989 and primarily service the auto industry, although we would love to diversify our business into other areas.

I have been working with West Michigan Works! for over two years in several areas, from using them as a resource in hiring skilled workers, and for training as in the apprenticeship programs (CNC and Die Maker). Their connection with The Right Place allowed us to meet the SFM Group whereby we just completed an all company lean/process training program. We also utilize them and in other ways such as job fairs.

My company has benefited by working with West Michigan Works! because we have secured valuable training funds and new employees that we would not have found otherwise. Plus, we have been able to network with other companies in the same industry, and share their insights.

What I find most valuable about partnering with West Michigan Works! is that there are such a vast array of resources at your fingertips.

Sincerely,

Katharine McKee
Administration Manager
