

August 22, 2018

The Honorable Rick Snyder
Governor
P.O. Box 30013
Lansing, MI 48909

Dear Governor Snyder,

On behalf of Dynamic Conveyor Corporation, I would like to express our gratitude for the monies awarded to our company from the 2018 Skilled Trades Training Fund. Dynamic Conveyor is a small, but growing women owned company that currently employs 28 people. Our Conveyor business was established as a Corporation in January 1991. What sets our business apart from other Conveyor companies is that our product is reconfigurable. As our customers grow and change, so can their conveyor systems that they have purchased from us.

With a small company of our size, it's imperative to have our production staff cross trained, so that everyone can lend a hand in all areas on our production floor as work ebbs and flows throughout the department. We can't thank West Michigan Works enough for their unwavering support in helping us claim a portion of the 2018 Skilled Trades Training Fund.

Because of the STTF grant we were able to send two of our shipping and receiving clerks to a Machining class which taught them the basics of our machinery, the class has empowered them to have the confidence and knowledge to jump in and help their team with projects that are outside their normal scope. In turn having two more extra sets of hands that can run our machinery has helped their other team members focus their attention on more intricate projects, ensuring we are able to meet the deadlines and ship dates promised to our customers. We have held a year to date average of 96% perfect orders for the year, which show what great team work we have in our production department and throughout our entire company.

Sincerely,

Tammy Jacobs
Administrative Manager
