The Honorable Rick Snyder
Governor
P.O. Box 30013
Lansing, MI 48909

Dear Governor Snyder,

On behalf of K-Line Industries, Inc., I would like to express our appreciation for the workforce development services provided by West Michigan Works! K-Line Industries is a locally owned specialty manufacturing company located in Holland, MI. This April marks 60 years of business for K-Line Industries. Our company supports the construction, agriculture, heavy truck, marine and turf equipment industries with world class service tools and equipment. K-Line offers a high quality, high technology manufacturing environment to its team members. All the latest technologies are incorporated into our integrated and creative manufacturing processes. This means keeping employees trained is critical to produce the quality product that our customers expect from us.

I connected with West Michigan Works! because I was looking to send a group of employees to a K-Line Specific Geometric Dimensioning and Tolerancing training. Michigan Works! helped me reach my goal by walking me through the process to apply for the Skilled Trades Training Fund grant. K-Line Industries sent 12 employees to a class where they were able to study our prints, ask company specific questions, and expand their knowledge of GD&T. This has benefited our employees by continuing their educations and our company with a more thorough process and less quality errors.

West Michigan Works! made the application process easy and assured me that my application was taken care of.

Sincerely,

Andrea Rabineau
Human Resources Coordinator
