

Theresa Anthony and the Michigan Works! Pontiac staff,

As a representative of Career Connections, we would like to thank the Oakland County Michigan Works Pontiac for the tremendous help in our business of providing employment to the local area. We are a small staffing company located in Clinton Township, but need to employ candidates in the Pontiac area. With that being said, we like to come to where the candidates are and having the ability to hold interviews in the area where we don't have an office can be problematic at times. Thanks to the location of the Oakland County Michigan Works we have been able to schedule multiple interviews a week over the last two months, all in very a professional setting!

Every time we have asked a staff member to help accommodate us in any sense, they have always been quick to respond with sincerity in their actions. The facility is well-maintained, clean, and modern which helps create a nice setting to conduct our business. With the help of the staff and the convenience of the location, we have been able to much greater success in our hiring process and success rate with the candidates that we want to employ.

Not only has the Oakland County Michigan Works been a tremendous help to us as a small business, but also a great addition to the local communities. By providing a location to help us conduct our business it helps bring members of the local communities together to try and find employment which is the goal. Our mission as a company has always been connecting talent to the opportunity, with the Oakland County Michigan Works it has made our mission much easier and more effective.

Thank you!

Sincerely,

Mike Moreno
