Dear Jennifer Llewellyn (Manager) of the Oakland County Workforce Development/Oakland County Michigan Works!:

The Michigan Works! was instrumental in establishing an apprenticeship program at FEV in 2015. Since then Sherry and Michigan Works! have helped to triple the size of the program at FEV making it a great success story for the company and for our community. As well existing employees had the opportunity to continue their education and gain more knowledge and certifications through Michigan Works! It has provided a chance for them to enroll in a variety of different classes and gain more experience on their career choices, helping to improve the work here, while also providing them with a better understanding and more knowledge to further their career.

Regards,

A handwritten signature in blue ink that reads 'Ryann Caudillo'.
