RE: P and F Systems Closure Job Fair Oakland County Michigan Works - Pontiac

---

Dear Theresa,

Thank you for taking the time to come out to our facility in regard to our plant closure. You were able to offer several resources to our team regarding opportunities in the area as well as information about unemployment. It is never easy to close doors, however you brought great comfort to our employees having shed light on your own history having been laid off I think gave the employees hope to continue in their careers.

You took your time with our employees and even connected us with Work Skills. Due to you sharing your contacts many of our employees went right from one job to the next without any downtime. The goal when we first started out was to find jobs for all that wanted one once P and F Systems was closed and we accomplished just that all thanks to you and your team.

While we hope this doesn't happen any time soon, I know you will be my first call if we need help like this again. You made this process, easy and successful and because of that we are so very grateful for you.

Sincerely,

A handwritten signature in cursive script that reads 'Ashleigh C. Barry'.
