Dear Governor Whitmer,

On behalf of Next Level Manufacturing, I would like to express our appreciation for the workforce development services provided by West Michigan Works! we are a small business with an average of 33 employees. NLM has been in business since 2011 and started with only 3 employees. We are mainly a proud supplier for the Aerospace industry.

I connected with West Michigan Works! because I needed assistance with the assistance with training for the incumbent workers. We knew that the training was going to important but the financial burden was large. Michigan Works! helped me reach my goal of improving the skill of each of our employees.

My company has benefited by working with West Michigan Works! because they helped us greatly with providing assistance and guidelines of the grant. They also helped us find the training providers for the classes we were looking for. What I find most valuable about partnering with West Michigan Works! is their continued efforts in making sure we succeed. If and when we had any questions they were very quick to respond. We look forward to working with them as we move forward.

Sincerely,

Melissa Groen
